MAY ALLEMPL TO START HERMENCE IN MOUND CITY DERBY SATURDAY.

J. F. Daniels Announces That He Will Send Colt on for Stake Engagement, Although He Has Been Racing at Union Park-Delmar Officials Will Refuse Him Admission.

Although his entire stable has raced at | ready entered in a stake could start, even the Union track since the opening of the meeting, thereby bringing upon its members the ban of the Western Jockey Club, J. F. Daniels, owner of Lord Hermence, yesterday announced his intention of try-ing to start the coit in the Mound City Derby at Delmar Saturday.

When notified of this yesterday, Mana the colt could not race, as he had already been disqualified for running at the Union track. So far as the Delmar officials were concerned, said Mr. Adler, admissi either the colt or this owner would be re-

Judge Murphy was asked concerning the point raised by Daniels yesterday and Woodruff of the Western Jockey Club in case a ruling was necessary upon the

Daniels claimed that the colt had been duly entered in the Derby before he went to the Union track, and said that the precedent established by the Western Jockey Club in a similar case, when it was fighting the Delmar and Fair Grounds tracks, had legalized the starting

By this he referred to the summer when the local track were under the ban of the Western Jockey Club. Tom Hayes had soveral hornes entered in stakes on other tracks, and he insisted that they be allowed to start. He sought legal measures in the matter, and it was finally decided by the turf body that a horse al-

Members of the local tracks, however declare that the cases are not parallel. They say that Hayes entered his horses before the Delmar and Fai Grounds tracks were engaged in an altercation with the Jockey Club. In this case the Union Jockey Club was known to have been refused recognition.

Mother there is any development in the case remains to be seen. The episode recalls the noted Huron case, although the circumstances are entirely different. Ed Corrigan had purchased Huron in the early nineties, and decided to start the colt in the Futurity. The Coney Island Jockey Club declared the entry invalid on account of all qualifications as to forfeits, and payments, not having been lived up to, while Corrigan asserted that all technicalities had been compiled with. He secured an injunction, ordering the Coney Island track to allow the colt to start. They allowed him to start, but that was all. His name dila-for appear on the programme, his number or lockey did not appear on the boards and his name was not nosted in the betting ring. Huron finished second, but the number of the third horse was hotsted as having won second money.

Litteation followed, as a result of which

horse was hotsted as a result of which Corrigan was barred from the Eastern tracks for several seasons.

Directors of the Kinloch meeting call attention to the fact that a clause in the concitions of the Mound City Derby requires each owner entering a horse to agree to abide by the decision of the Board of Directors on any point that may arise.

Board of Encents provides that the asso-arise.

Another clause provides that the asso-ciation can reject any entry. Even if Lord Hemence is duly entered, they state, these clauses protect the association, as Daniels's own signature is attached there-

American Trotting Association Refuses to Recognize Cresceus's Wichita Record.

Chicago, May 1.-The Board of Appeals of the American Trotting Association at a meeting here to-day refused to recognize the record of 1:50%, claimed to have made by Cresceus on the grounds of the Kas., last fall. The finding of the amo-

ciation follows:

From the evidence submitted by the Southern Kanss Pair Association, Wichita, Kas. and George H. Ketchum, Tojedo, O., we find that the performance of Cresqua on the grounds of the Wichita Pair Association at Wichita, Kas. on the Bith of October, 1982, was not conducted in accordance with the rules of the American Trotting Association governing performances against time, and that the time of 1:25, then and there claimed to have been made by said horse, is beither record nor a bar under the said rules.

It is therefore ordered and determined that the application to establish such record be, and the same is, hereby dended.

The sworm evidence presented to the board, covering all the circumstances surrounding the aftair, shows irregularity and indicates that gross fraud was attempted, not only upon this association, but sagainst the entire public, and under the rules of this association it becomes our dury to millify the effects thereof so far as possible.

She says: "We were married April 2. Iso, in St. Louis. In July, 1993, he disappeared. I have not seen him since. A

The worst disease the world has ever known, and the greatest scourge to the human race, is Contagious Blood Poison. One drop of the virus of this most horrible of all diseases will pollute and vitiate the purest, healthiest blood, and within a short time after the first little sore appears the system is filled with the awful poison and the skin breaks out in a red rash;

the glands of the groins swell, the throat and mouth become ulcerated, the hair and eyebrows drop out, and often the entire surface of the body scovered with copper-colored splotches and sickening sores and eruptions. Contagious Blood Poison is as treacherous and elusive as the serpent. You may be carrying it in your veins with no visible evidences

of its existence; for while mercury and potash seem to cure and all external signs disappear, the dis-case is doing its destruc-tive work within, or the patient is constantly harassed by returning symptoms and unmistakable traces of the blood poison. Thousands of

physical wrecks and chronic invalids from the effects of Blood Poison know the uncertainty of the mercury and potash treatment-that it stifles but does not kill the serpent. As long as there is life in the serpent there is danger in its fangs; and while your blood is tainted there is danger of infection. Safety lies only in crushing out the life of the loathsome disease and killing the serpent. For many years S. S. S. has been known as an antidote for Blood Poison. It is a remedy composed entirely of vegetable ingredients, and we offer \$1,000 for proof that it contains the least particle of mercury, potash or other mineral. It thoroughly purifies the blood, improves the appetite and digestion, and tones up all parts of the system.
